

Ericom Application Isolator Technical Requirements

Ericom Application Isolator software integrates with leading network infrastructure and Check Point, Forcepoint, Fortinet and OpenVPN VPN solutions.

UP TO
1,000 
Simultaneous Users

Components	Ericom Access Controller	Ericom Application Isolator
CPU Type	1.6 Ghz	1.6 Ghz
CPU Cores	2 cores	1 core
Memory	2 Gigabytes of RAM	512 Megabytes of RAM
Disk	10 Gigabytes of disk	1 Gigabyte of disk
Network Interfaces	1 x 100 Mbps NIC	3 x 100 Mbps NIC
Operating System	Ubuntu 16.04 or higher	N/A
MAX Environment Support	1000 simultaneous users	800 Mbps throughput

Up to
5,000 
Simultaneous Users

Components	Ericom Access Controller	Ericom Application Isolator
CPU Type	3.4 Ghz	3.4 Ghz
CPU Cores	12 cores	16 cores
Memory	16 Gigabytes of RAM	4 Gigabytes of RAM
Disk	1 Terabyte of disk	1 Gigabyte of disk
Network Interfaces	1 x 1 Gbps NIC	3 x 10 Gbps NIC
Operating System	Ubuntu 16.04 or higher	N/A
MAX Environment Support	5000 simultaneous users	10 Gbps throughput

Up to
10,000 
Simultaneous Users

Components	Ericom Access Controller	Ericom Application Isolator
CPU Type	3.4 Ghz	3.4 Ghz
CPU Cores	24 cores	32 cores
Memory	32 Gigabytes of RAM	8 Gigabytes of RAM
Disk	2 Terabytes of disk	2 Gigabytes of disk
Network Interfaces	1 x 1 Mbps NIC	3 x 10 Mbps NIC
Operating System	Ubuntu 16.04 or higher	N/A
MAX Environment Support	10000 simultaneous users	20 Gbps throughput
