

PowerTerm® InterConnect (Linux edition)

Enterprise-class terminal emulation for Linux

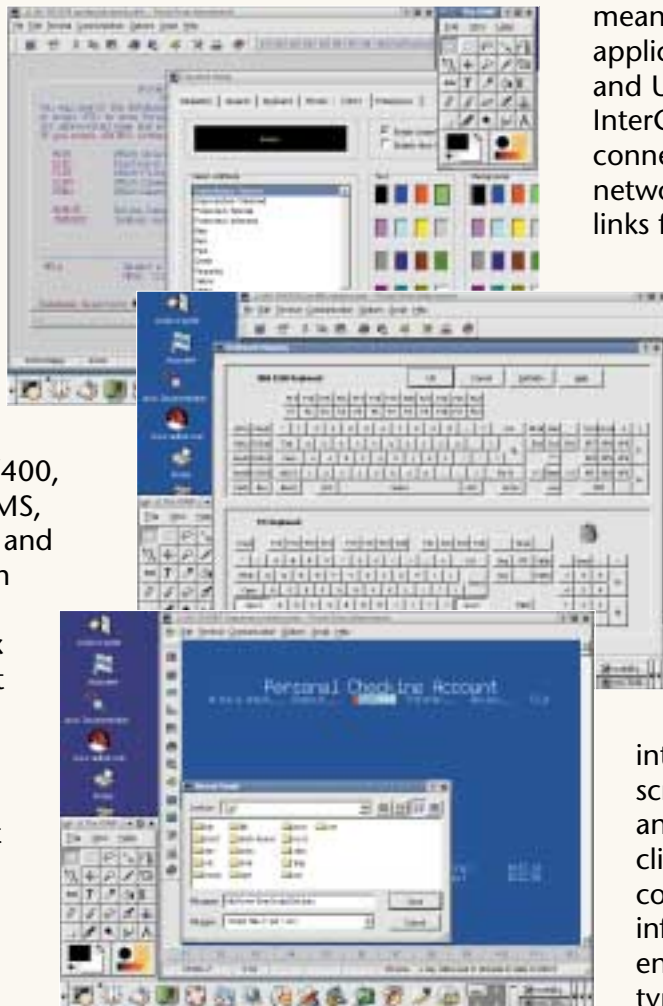

The complete host access solution for Linux platforms

PowerTerm® InterConnect (Linux edition) is Ericom® Software's host connectivity solution for organizations requiring fast and accurate access to data residing on the broadest and widest range of hosts on the market today,

including:

IBM Mainframe, IBM AS/400, Unix, VAX/Alpha OpenVMS, Tandem (NSK), HP-3000 and Data General. PowerTerm InterConnect is the complete Linux and Unix solution for multiple host information access, working on Linux and major Unix workstations.

PowerTerm InterConnect is based on Ericom Software's proven technology, with over 4 million installations worldwide.

means of running legacy applications from within Linux and Unix platforms. PowerTerm InterConnect facilitates connection to applications over network, modem or direct serial links from any workstation.

Maximize Efficiency and Productivity

PowerTerm InterConnect boasts a robust set of state-of-the-art features and fast key response times. Features include customizable function keys, multiple concurrent sessions, menu bar, scalable and selectable fonts,

intelligent copy & paste, scripting, advanced printing, and more. This full-feature client ensures fast, reliable connections for sharing information throughout the enterprise, regardless of host type.

Seamless Connectivity

The PowerTerm InterConnect terminal emulator maximizes enterprise-wide productivity by enabling reliable access to accounting, inventory management, transaction processing and other mission-critical legacy applications. PowerTerm InterConnect provides seamless connectivity to the widest range of machine types and information systems.

PowerTerm InterConnect supports a full line of IBM (3270 and 5250 both display and printer), Digital, ANSI, Data General, Wyse, Televideo, Siemens, Tandem, HP, and other terminal emulation types. Its powerful and friendly user-interface provides a simple, fast and effective

Simple to Install and Use

This full Linux and Unix terminal emulator is less than 9MB in size and is installed onto any workstation in just a few minutes. Once installed, you can start connecting and using it immediately. Its intuitive nature makes it the easiest to use emulator today, helping to minimize training and maintenance.

Also available:

PowerTerm Host Publisher, PowerTerm HostView, PowerTerm WebConnect, PowerTerm Pro, PowerTerm Pro Enterprise, PowerTerm Plus, PowerTerm Lite, PowerTerm CE, PowerTerm Mobile, and PowerTerm WBT.

PowerTerm InterConnect (Linux edition) Technical Specifications

Platforms Supported	All Linux distributions, including Red Hat, SuSE, Mandrake, and other major Unix platforms
Hosts Supported	IBM Mainframe, IBM AS/400, Unix, VAX/Alpha OpenVMS, Tandem (NSK), HP-3000, Data General
Terminals Emulated	IBM: 3270 (TN3270E), 3179, 3278, 3279, 5250 (TN5250 with device name support), 3477 Digital: VT52, VT100, VT220, VT320, VT420, VT520, VT525 ANSI: BBS-ANSI, SCO-ANSI, AT386 Others: Wyse (50/60), Data General D-412, Televideo TVI 925/950, AlXterm
Supported Interfaces	Ethernet, Token Ring, Serial Ports
Communication Modes	TN3270/TN3270E (RFC 1646 and 1647), TN5250/TN5250E, Telnet, Serial, Modem, Direct COM Port, PPP/SLIP
File Transfer	IND\$FILE, Kermit (including get command), Xmodem, Ymodem, Zmodem, transfer to/from clipboard, host initiated file transfer, remote file browsing
Printing Support	Auto print mode, print screen, slave printing, IBM 3287 printer, IBM 3812 printer, SNA LU1 and LU3 support, advanced printing (i.e., LPI & CPI), host print transform, override host settings, CICS printing
Screen Support	Graphical drag & drop keyboard mapping, graphical color selection, customizable function keys, scalable fonts, status line, menu bar and toolbar, 80/132 column width, variable lines per page, double width/height characters, blink, underline, reverse and more
Language Support	English, German, French, Spanish, Italian, Turkish, Greek, Dutch, Polish, Hungarian, Swedish, Czech, Danish, Norwegian, Finnish, Portuguese, Russian, and all other European languages
User Interface Support	English, French, German, Greek, Italian and Spanish
Other Features	122 IBM keyboard support, keep-alive-timeout, multiple sessions, Power Script Language, Save-lock-state, language code pages support, macros, script recorder, history scrollbar for session review, intelligent copy & paste of blocks/lines/words, programmable hotspots, status display for host and printer and much more

Ericom and PowerTerm are registered trademarks of Ericom Software in the United States and/or other countries. All other brands and product names mentioned are trademarks of their respective owners.

Ericom Software develops and markets a range of legacy integration software applications that enable e-Business solutions. Built on the proven PowerTerm® engine, the Ericom products provide the broadest and most complete range of host application access allowing organizations to integrate legacy systems, with zero changes to those systems while implementing Web, wireless, XML and other strategic IT initiatives like CRM and ERP. Ericom has offices in the US, the UK, France and Israel, and a global network of distributors, resellers and partners. Since 1993, the company has sold over 4 million licenses to companies in 45 countries.

Customers and partners include Acer, AT&T, Banco Central de Reserva El Salvador, Bank of Italy, Ben & Jerry's, BF Goodrich, The British Army, Cambridge University Press, Chase, Columbia University, Compaq, Dow Jones, EDF (Electricité de France), France Telecom, GE Capital, Harvard University, Hewlett-Packard, Hitachi, Johns Hopkins, MAN AG, The Montreal Exchange, Motorola, Merrill Lynch, NASA, NATO, Microsoft, Nations Bank, Pfizer, Roto-Router, The Royal Australian Navy, Tower Records, Toyota, UCLA, UPS, US IRS, as well as other leading corporations, universities and government agencies.
