

PowerTerm® InterConnect

The complete host access solution in one compact, easy to use program

PowerTerm® InterConnect is Ericom® Software's original host connectivity solution for organizations requiring fast and accurate access to data residing on a variety of hosts, including IBM, Digital, Unix, SCO and Data General. PowerTerm InterConnect is the complete Windows solution for 16 and 32-bit multiple-host information access, working on Windows 3.x, Windows 95, Windows 98, Windows NT and Windows 2000 platforms.

concurrent sessions, history scroll bar, menu bar, scalable and selectable fonts, intelligent copy & paste, FTP client, Intellimouse support, advanced printing and file transfers between PCs and hosts. This full-feature client ensures fast, reliable connections for sharing information throughout the enterprise, regardless of host type. PowerTerm InterConnect offers multi-language support: The GUI

Seamless connectivity from PC to host

The PowerTerm InterConnect terminal emulator maximizes enterprise-wide productivity by enabling reliable access to accounting, inventory management, transaction processing and other mission-critical legacy applications. PowerTerm InterConnect provides seamless connectivity to the widest range of machine types and information systems.

Supports a full line of emulation types on the widest variety of hosts

PowerTerm InterConnect supports a full line of IBM, Digital, Wyse, Data General, SCO and other terminal emulation types. Its extremely small footprint provides a simple, fast and effective means of running legacy applications from within Windows 3.x/95/98/NT/2000 platforms.

PowerTerm InterConnect facilitates connection to applications running on a variety of hosts such as IBM Mainframe, IBM AS/400, Digital and Unix, over network, modem or direct serial links from any PC.

Maximize efficiency and productivity

PowerTerm InterConnect boasts more state-of-the-art features and faster key response than any competing solution. Features include customizable function keys, Power Script Language, multiple

(including menu and dialog boxes) is available in English, German, French, Spanish and Italian, while the program supports dozens of other languages.

Secure terminal emulation

PowerTerm InterConnect supports the host access needs of large and small organizations alike, allowing enterprises to standardize on a single host access solution.

Quick and simple to install

This full 16-bit and 32-bit terminal emulator is distributed in less than 3MB and is installed onto any PC in one minute.

Also available:

PowerTerm Host Publisher, PowerTerm Pro, PowerTerm Pro Enterprise, PowerTerm WebConnect, PowerTerm Plus, PowerTerm Lite, PowerTerm CE and PowerTerm WBT.

PowerTerm InterConnect Technical Specifications

Platforms Supported	Windows 3.X, Windows 95, Windows 98, Windows NT, Windows 2000
Hosts Supported	IBM Mainframe, IBM AS/400, VAX/VMS, Alpha/Open VMS, Unix, SCO, Data General
Terminals Emulated	IBM: 3270 (TN3270E), 3179, 3278, 3279, 5250 (TN5250 with device name support), 3477 Digital: VT52, VT100, VT220, VT320, VT420, VT520, VT525 ANSI: ANSI-BBS, SCO-ANSI, AT386 General: Wyse (50/60), Data General D-412, Televideo TVI 925/950, AIXterm
Supported Interfaces	Ethernet, Token Ring, Serial Ports
Communication Modes	TN3270/TN3270E (RFC 1646 and 1647), TN5250/TN5250E, Microsoft SNA server, Novell Netware for SAA, APPC (NS-Router for 5250), Telnet, Serial, Modem, Direct COM Port, Pathworks LAT, Super LAT, DECnet, PPP/SLIP, INT14, BAPI, TCP/IP
File Transfer	FTP (File Transfer Protocol), IND\$FILE, Kermit (including get command), Xmodem, Ymodem, Zmodem, transfer to/from clipboard, host initiated file transfer, remote file browsing, ASCII
Printing Support	Auto print mode, print screen, slave printing, IBM 3287 printer, IBM 3812 printer, SNA LU1 and LU3 support, advanced printing (i.e., LPI & CPI), host print transform, override host settings, CICS printing
Screen Support	Graphical drag & drop keyboard mapping, graphical color selection, customizable function keys, scalable fonts, status line, menu bar and toolbar, 80/132 column width, variable lines per page, double width/height characters, blink, underline, reverse and more
Language Support	English, German, French, Spanish, Italian, Greek, Turkish, Danish, Finnish, Portuguese and more
Other Features	LK450 keyboard support, keyboard mapping, keyboard property page, modem dialing keep-alive-timeout, multi sessions, Power Script Language, Intellimouse support, Save-lock-state, language code pages support, macros, script recorder, history scroll bar for session review, high-level API, DDE client & server, intelligent copy & paste of blocks/lines/words, floating programmable PowerPad keypad, programmable hotspots, status display for host and printer, HLLAPI, EHLLAPI and much more

Ericom and PowerTerm are registered trademarks of Ericom Software Limited. Windows is a registered trademark of Microsoft Corporation in the United States and/or other countries.

Ericom Software is a leading provider of corporate connectivity, e-business, wireless and business-to-business solutions that extend the life of host and legacy data by creating Internet applications from existing host resources. Ericom develops, markets and supports a complete line of interconnectivity software products including the PowerTerm® series of terminal emulators. Ericom's technologically advanced host and remote access products enable organizations to securely, efficiently and cost-effectively connect to any host, anytime, anywhere. With over 2.5 million users in 45 countries worldwide, Ericom continues to expand into new areas of host access, host-to-web and e-business. Leading corporations, government agencies and educational institutions rely on the PowerTerm series of products to access mission-critical information and applications vital to their business needs.

Among Ericom's satisfied customers: Motorola, Hitachi, Pfizer, AT&T, Ben & Jerry's, Tower Records, Toyota, Nintendo, BF Goodrich, John Deere, UPS, Nations Bank, Dow Jones, Chase, Merrill Lynch, GE Capital, The Montreal Exchange, Banco Central de Reserva El Salvador, France Telecom, The Royal Australian Navy, The British Army, NASA, NATO, US Internal Revenue Service, Harvard University, Columbia University, Johns Hopkins, UCLA, and more.
